Keep teams in sync effortlessly

## Smart Sync

Access to every folder right from your desktop, while taking up virtually no space on your hard drive.

## Team folder

Keep collaboration secure with granular permissions and a central hub for content management.

## Dropbox paper

Create and share collaborative documents with teammates.

## Redesigned Dropbox web experience

A simpler user interface and revamped user experience to make Dropbox more accessible and easier to navigate.

Access sophisticated admin features

## Powerful administrative tools

Increase visibility and centralize control over company data with all the admin features included in the Standard plan for Dropbox Business, plus:

- Invite enforcement
- Device approvals
- Sign in as user
- SSO integrations
- Audit logging, filtering and exporting for two-dozen file-level events
- Tiered admins
- Domain/sub-domain verification
- Phone support
- Access to upcoming features exclusive to Advanced

Store and access everything your team needs

## Storage and Partner access

- As much space as you need
- Unlimited API access to platform partners
- 25,000 calls/month for data transport API access

## Other key features included in the Advanced plan:

- Best-in-class sync technology
- 256-bit AES and SSL encryption
- Dropbox badge (in Office collaboration tool)
- Remote wipe
- Company-managed groups
- 120 days of extended version history and file recovery
- Password-protected links
- Auto-expiration links
- Chat, email and phone support
- Centralized billing
